Property of Origin (POO)	Arrival Date to POO or BOP	No. Head	Identification PIC/Brands/Tags/Other	Category*	Sex**

\*Category: Breeder (B); Feeder (F); Slaughter (S)

\*\*Sex: Male (M); Castrate (M-); Female (F); Female Spayed (F-)

**Declaration**

I, \_\_\_\_\_ (BLOCK LETTERS), being the authorised management representative of \_\_\_\_\_ (Property Name) declare that the animals described above for the pre export of \_\_\_\_\_ (type / species) to \_\_\_\_\_ (importing country) comply with the following conditions:

1. The Cattle originated from farms/ premises not quarantined for any bovine health reason at the time of certification,
2. The cattle not within a withholding period or ESI for antibiotics
3. The Animals for export were kept in a Bluetongue Virus free zone for a minimum of 60 days prior to transport to pre-export registered premises or since birth; **Yes (tick)**
4. To the best of my knowledge, no diseases have been diagnosed on the property during the last five years that may make these cattle ineligible for export. I give permission for the relevant State Department of Agriculture to disclose herd disease information to a third party, ILE., in relation to the export of feeder/breeder/slaughter cattle;
5. The herd of origin is free from Johne's disease of the previous 5 years, and there have been no clinical or reported cases of Enzootic Bovine Leukosis (EBL), Paratuberculosis (Johne's disease) and bovine pasteurellosis for the previous 3 years, and Trichomoniasis, Vibriofetus (Campylobacteriosis), Leptospirosis, Bovine Herpes Virus Type I (BHV1 - clinical IBR/IPV), Bovine Viral Diarrhoea/Mucosal Disease (BVD/MD), Neospirosis and Parainfluenza-3 (PI-3) for the previous 12 months
6. The property of origin have been clinically free from anthrax, paratuberculosis (Johne's), enzootic bovine leukosis (EBL) or any other notifiable disease of cattle, and has had no clinical cases of infectious bovine rhinotracheitis (IBR/IPV), BVD/MD, PI-3, epizootic haemorrhagic disease or leptospirosis during the previous 3 years.
7. The cattle have not been fed mammalian protein
8. No outbreak of the following contagious conditions have occurred on the property within the last thirty days: Actinomycosis (lumpy Jaw), Dermatophilosis (cutaneous streptothrichosis), Trichophytosis (ringworm), Contagious Ophthalmia / Bovine Keratoconjunctivitis (pinkeye). No cases of Hendra Virus has occurred during the last six months
9. All cattle during the 30 days prior to shipment were free from clinical evidence of any disease
10. The cattle to be exported are NLIS identified and registered on the NLIS database against the above PIC
11. Livestock comply with all relevant state/territory health and welfare legislation and national codes of practice regarding on - property management and land transport according ASEL v3 (S1.11 – 1.1.9, S1.4.1 – 1.4.5, S2.1.1-2.1.3)
12. Livestock will be loaded for road transport to the registered premises in accordance with ASEL v3 Standard 2 (S2.1.1-2.1.3)
13. As part of the chain of responsibility all livestock are to be sourced and transported under the Australian Standards for the Export of Livestock v3 and to the advised ILE specifications. Please contact ILE, buyer or agent If you are unclear or require a copy of ASEL v3.

**ALL CATTLE MUST BE TAGGED WITH A NLIS TAG AT THE TIME OF ENTRY TO THE PRE-EXPORT REGISTERED ESTABLISHMENT**

Signature (Owner/Manager): _____	Date: _____
Name (BLOCK LETTERS): _____	Tel: _____
Address: _____	Fax: _____
	Email: _____

**The vendor must complete all sections of this declaration that refer to the consigned cattle and email to ILE.**

**The original is then to be attached to NVD / Waybills and handed to transport driver for carriage to the pre-export Registered Establishment.**

It is the requirement of the Australian Livestock Export Standards (Version 3) "when receiving and identifying livestock, the Depot Operator must obtain a copy of the Vendor Declaration/s regarding the property of source and health status of the livestock before accepting the livestock for the purpose of preparation for export". All livestock are to be sourced under standard 1 of the Australian Standards for the Export of Livestock Version 3 and to the advised International Livestock Export Pty Ltd specifications
