Declaration

I, _____ (BLOCK LETTERS) being the authorised management representative of
_____ (property name) declare that the animals described above for the pre export
of **BREEDER CATTLE** to **SABAH**, comply with the following conditions: -

- (a) No lame, blind, injured, sick or substituted animals will be loaded on road transports to ship or holding facility.
- (b) During transport to the authorized assembly depot no animals other than those described were loaded.
- (c) The cattle were born and raised in Australia.
- (d) To the best of my knowledge, livestock sourced for export comply with Australian food safety requirements, including standards for chemical residues or environmental contaminants.
- (e) I further declare: -
 - the cattle are free from clinical evidence of the following contagious conditions: Actinomycosis, Trichophytosis (Ringworm), Contagious Ophthalmia/Bovine Keratoconjunctivitis (Pink Eye) and there has been no outbreak of these diseases reported on the property during the past **30 days**.
 - the property has remained free from any known outbreaks or clinical symptoms of the following diseases – Leptospirosis, IBR/IPV, Enzootic Bovine Leucosis (EBL), Clostridia, Trichomonas Foetus, Vibriosis, Bovine Genital Campylobacteriosis. No cases of Trichomaniasis, Q Fever or Melioidosis.
 - The following diseases are under control on the property of origin: Dermatophilosis, Clostridial diseases
 - The animals have never been fed with any kind of processed animal proteins.
 - The animals for export originate from properties which are officially free from Bovine Tuberculosis and Bovine Brucellosis.
- (f) The cattle to be exported are NLIS identified and registered on the NLIS database against the Property Identification Code (PIC) where they currently reside.
- (g) I give permission for the relevant State Department to disclose animal health information relating to my property to a third party, for the purpose of the export of live animals that have resided on my property.
- (h) To the best of my knowledge, cattle are up to 24 months of age.

Note: Commonwealth legislation provides that giving false or misleading information is an offence, with penalties up to five years imprisonment.

Property Name & PIC Number				

I, _____ (BLOCK LETTERS), being the authorised management

representative of the above mentioned property, declare to the best of my knowledge, the animals prepared and handled for export have met with any relevant road transport requirements under state or territory legislation and relevant requirements under the national Model Codes of Practice for the Welfare of Animals. ASEL Standard 2.6 (Standard for Land Transport of Livestock for Export and OIE (World Organization for Animal Health) Chapter 7.3 (Transport of Animals by Land). Please sign below if you conform to these requirements.

- A travel plan has completed for all journeys of more than 8 hours duration and interstate journeys greater than 2 hours. (ASEL S.2.3)
- Livestock have been mustered and handled to prepare for land transportation to maintain health and fitness for travel. Feed and water curfews are to be observed. (ASEL 2.4; 2.8; 2.9; Appendix 2.3)
- Livestock were inspected prior to loading and any animal showing signs consistent with the rejection criteria in Standard S1.7 of Standard 1 or any other condition that may cause animals health to decline were not loaded. (ASEL S.2.11). The owners and managers of the livestock are responsible for the general health, overall welfare and fitness of the animals for the journey (OIE A.7.33)
- Ensure vehicles are of appropriate design, clean and in maintained in good working order, for the type of livestock transported. Transport operators are responsible for this requirement and must maintain a journey log book.
- Livestock drafted and loaded for transport by land were separated by class, species and size. Livestock with horns over 12cm separated from other livestock. (ASEL 2.10) Livestock not to be loaded until a travel plan is completed (ASEL 2.12)
- Livestock were loaded in a manner that prevents injury and minimises stress including loading densities and penning arrangements. The person responsible for the land transport vehicle must be responsible for the livestock (ALES S2.13-S2.16).
- Working dogs are not transported in the same pens as livestock. Livestock will be unloaded and rested as specified in Appendix 2.1 and in accordance with state/territory legislation. At unloading the livestock will become the responsibility of the management personal of the registered premises. Distressed or injured livestock must be given immediate assistance. Humane euthanasia to be carried out if necessary (ASEL S2.17 - 2.20).
- Livestock will be unloaded into registered premises by competent stock handlers in a manner that prevents injury and minimizes stress (ASEL 2.21 – 2.24)
