

Detailed Saleyard Report - Cattle
 Market information provided by MLA's National Livestock Reporting Service

Toowoomba

Yarding 117
 Change -16

report date 29/11/2021

comparison date 22/11/2021

The continuation of useful falls of rain across the usual supply area resulted in numbers remaining very close to the previous weeks level at 117 head at the Toowoomba cattle sale. Good quality young cattle were in the largest numbers, along with just a handful of cows. The regular feeder buyers were in attendance plus a large line up of restockers. Prices continued to improve for the young light weight lines of yearling steers and heifers returning to the paddock. Feeder operators also lifted prices on quality lines of yearling steers and heifers. Similar to the previous sale cows were to small in numbers to provide a reliable quote.

A couple of vealer heifers made to 638c/kg. Light weight yearling steers under 200kg returned to the paddock at 900c, with a handful over 200kg making to 700c to average 672c/kg. Yearling steers in the 280 to 330kg range also returned to the paddock at 682c to reach 718c/kg. Yearling steers to feed for the domestic market made to 600c to average 591c/kg. Heavy weight yearling steers to feed averaged 568c and made to 590c/kg. Light weight yearling heifers returning to the paddock or background made to 620c to average 603c/kg. Yearling heifers to feed made 610c, with some heavy weights also reaching 610c to average 536c/kg.

A small selection of heavy weight cows made to 376c/kg. Heavy weight bulls made to 354c/kg.

Market Reporter, Trevor Hess.
