

Detailed Saleyard Report - Cattle

Market information provided by MLA's National Livestock Reporting Service

Toowoomba

report date 10/06/2019

Yarding 794
 Change 16

comparison date 03/06/2019

The supply of stock remained very close to the previous weeks level, and there was a wide variation in the quality of the young cattle. However the standard of the very small selection of bullocks was very good, and fair supply of mixed quality cows were penned. The usual panel of buyers was present and most were operating. Very light weight poor condition young cattle were hard to sell, while the better end of the lightweight yearling steers returning to the paddock improved in price by 10c/kg. Medium weight yearling steers to feed averaged 7c/kg better, and heavy weights to feed also sold to a dearer trend. Light weight yearling heifers to restockers or background sold to stronger competition. The heavy end of the cows gained 5c to 10c/kg, while light weight poor condition cows sold to a cheaper market.

Steer calves made to 226.2c to average 204c, and mixed sex calves averaged 128c/kg. The occasional vealer heifer to the trade made to 239.2c/kg. A fair supply of light weight yearling steers returning to the paddock mostly sold around 240c with sales to 276.2c/kg. Medium weight yearling steers to feed averaged 255c and made to 264c, and a handful to the trade made to 280c/kg. A small selection of heavy weight yearling steers to feed averaged 276c and made to 278.2c/kg. Light weight yearling heifers mostly sold in the early to high 180c range with some to 209.2c/kg. Some well bred medium weight yearling heifers to feed averaged 250c, and a few heavyweights to the trade made to 269.2c/kg.

A couple of outstanding B muscle bullocks made to 320.2c, while a small selection of supplementary fed classes made to 309.2c/kg. Medium weight 2 score cows averaged 162c, and the better 3 scores 191c/kg. Good heavy cows made to 210.2c to average 204c/kg. Heavy bulls made to 256.2c/kg.
