

Detailed Saleyard Report - Cattle
 Market information provided by MLA's National Livestock Reporting Service

Toowoomba

 Yarding 217
 Change -406

 report date 20/01/2020
 comparison date 13/01/2020

Useful falls of rain across most of the supply area reduced the supply of stock down to 217 head. Overall quality was very mixed, however a few pens of supplementary fed yearling steers and heifers were included in the lineup. Buyer attendance was generally good and most were operating. Prices responded to the rain, and the shorter supply. Light weight yearling steers returning to the paddock averaged 4c/kg better. A small sample of light weight yearling heifers to restockers improved by up to 30c/kg. The small selection of cows also gained 20c to 34c/kg.

Light weight yearling steers returning to the paddock averaged 257c, and made to 276c/kg. Yearling steers to feed for the domestic market made to 304c and medium weights averaged 278c/kg. Heavy weight yearling steers to the trade averaged 303c and made to 307.2c/kg. Light weight yearling heifers returning to the paddock averaged 224c and made to 235c/kg. Medium weight yearling heifers to the trade averaged 291c, and a few heavy weights averaged 290c and made to 300c/kg.

Light weight poor condition cows averaged 130c, and medium weights to processors averaged 151c/kg. A handful of medium weight 2 scores made to 209c to average 208c/kg. A short supply of good heavy cows made to 249.2c/kg.
