

## Detailed Saleyard Report - Cattle

Market information provided by MLA's National Livestock Reporting Service

### Warwick

report date 01/10/2019

Yarding 1218  
 Change -276

comparison date 24/09/2019

Numbers reduced by 276 head to 1,218. Mixed quality young cattle were in the largest numbers, along with a few pens of heavy grown steers and bullocks, and a fair supply of mixed quality cows. Most of the usual buyers were in attendance and operating. The trend of light weight drought affected young cattle receiving limited support continued. However, the better end of the light weight yearling steers returning to the paddock received fair demand for the standard penned. The short supply of medium weight yearling steers to feed experienced only quality related price changes. The limited numbers of heavy weight yearling steers to feed and the trade gained 8c to 17c/kg. Light weight yearling heifers to restockers or backgrounders averaged 4c/kg less. All classes of cows received strong support from restockers and processors, with gains of 1c to 6c/kg.

Light weight yearling steers returning to the paddock averaged 231c and made up to 255c/kg. Medium weight yearling steers to feed averaged 270c and made up to 290c/kg. Heavy weight yearling steers to feed averaged 283c and made to 290c/kg. Local trade lines made up to 315c, to average 304c/kg. Light weight yearling heifers averaged 173c and made up to 185c/kg. Yearling heifers to feed for the domestic market made to 230c, to average 213c/kg. A handful of heavy weight yearling heifers to the trade made up to 289.2c, to average 284c/kg.

Heavy grown steers to export slaughter made up to 314.2c, to average 310c and a few bullocks averaged 293c/kg. Light weight poor condition cows averaged 127c and medium weights averaged 156c/kg. Medium weight 2 score cows averaged 193c and made to 205.2c/kg. Good heavy cows made to 248.2c with most around 236c/kg. Heavy bulls made to 274.2c/kg.
